George Christopoulos

Web Developer | Lamia, Greece

geo.christopoulos@hotmail.com | 6986487131

geochris.me | linkedin.com/in/geochrs | github.com/geochrs

Web developer with experience in full-stack development, focusing on building functional, efficient, and maintainable web applications using modern tools and frameworks.

Projects

BeBalance | *Python, MySQL, jQuery*

- Maintained and optimized a real-time web app, resolving critical bugs and ensuring seamless operations.
- Implemented new features based on client feedback to enhance functionality.
- Improved performance by optimizing database queries and reducing load times.

ParkLoft | *React, Node.js, MySQL*

- Enabled real-time availability, allowing users to instantly view available parking spots across multiple locations.
- Designed a fast 3-step booking flow for a quick and efficient user experience.
- Implemented secure user authentication and profile management, allowing users to save preferences, view past bookings, manage their details, and providing both user and guest access.

Skills

- **Languages & Frameworks:** Python, JavaScript, React, Node.js (Express.js)
- **Web Technologies:** HTML, CSS, jQuery
- **Databases:** MySQL
- **Tools & APIs:** Git, GitHub, Vercel, PayTabs
